	hosted by the DSHW.		

Note if a waste tire recycler locates within Davis County this plan will be modified to include waste tire recycling reimbursement processing and recycler inspections.

Solid and Hazardous Waste: Used Oil

GOAL	OBJECTIVE	MEASURE	TO BE REPORTED
Protect public health and the environment from exposure to contamination caused by improper	Inspect all used oil collection centers (UOCCs) every six months and submit an inspection report.	Number of UOCCs inspected. Complete inspection reports, to	UOCC inspection forms, photos and log sheets submitted to the Division, semi-annually:
treatment, storage, and disposal of used oil.	1. Document inspections on UOCC Inspection Form provided by Division of Solid and Hazardous Waste (DSHW): a) Ensure all inspection forms are completely filled out. Use N/A if not applicable. b) On the bottom of the inspection report, annotate time spent to complete the inspection (include travel. c) Add comments, suggestions or issues in the note section.	include checklists, log sheets and printed/labeled photographs of the UOCC. Documentation of any non-compliance and resolutions on the inspection form.	 No later than Jan. 20 (for July – Dec. activity) No later than July 20 (for Jan. – June activity)

GOAL	OBJECTIVE	MEASURE	TO BE REPORTED
	2. Attach a print copy of photo(s) to		
	each inspection form to document		
	conditions and/or noncompliance		
	and resolutions implemented.		
	3. Gather DIYer log sheets at UOCCs		
	and submit with inspection forms		
	and photo(s).		
	4. Educate the UOCC on		
	procedures, as needed:		
	a) Educate that any orphan used		
	oil can be listed on the log		
	sheet. List it as 'orphan oil' and		
	include date and quantity.		
	b) Stress that the UOCC is not to		
	accept business used oil unless		
	it is properly registered through		
	the Used Oil program.		
	5. Identify and document all		
	observed noncompliance of used		
	oil rules and regulations on the		
	inspection form.		
	6. Confirm that noncompliance		
	issues are followed up and		
	corrected by the UOCC within an		
	appropriate time frame. Include a		
	statement of how any issues will be Resolved.		
	7. Ensure that all used oil spills at		
	UOCCs are cleaned up in a timely manner.		
Protect public health and the	Investigate all complaints	All complaints regarding used oil	Semi- annually on the UOCC
environment from exposure to	regarding used oil releases and	releases are listed on the Semi-	Report Form:

Water Quality

GOAL	OBJECTIVE	MEASURE	TO BE REPORTED
Effectively implement the small wastewater disposal system program to protect the environment and enhance relations with and support of local health department.	Administer small wastewater disposal systems to comply with Utah Administrative Code R317-4 and local rules. 1. Review, approve, and inspect all new, repairs, and alterations to Conventional and Alternative onsite systems, including Holding Tanks. 2. Conduct complaint investigations and pursue corrections of any onsite system failures. 3. Collect the \$25 for each new onsite wastewater system installed, and remit fees to DWQ by the 30 th day of the month following the end of each quarter. 4. Assure that all LHD staff involved in the review, approval, and inspection of onsite wastewater systems are trained and certified at the appropriate level per R317-11.	1. Existence of plan review, perc test, soil log evaluation and inspection records. 1. Number of systems approved. 1. Number of systems inspected. 1. Total number of systems in county. 1. Number of Holding Tank approvals issued. 2. Number of complaint investigations conducted. 2. Number and type of failures identified and/or corrected. 3. Fees remitted quarterly to DWQ. 4. All staff are certified per R317-11 and identified as being Level 2 or 3. 5. All work is done by persons certified per R317-11.	Annually, in conjunction with the End of Year Report.

GOAL	OBJECTIVE	MEASURE	TO BE REPORTED
	5. Assure that all onsite system work is done by persons certified as appropriate according to R317-11.		
Communication and Training	To remain effective and knowledgeable, DWQ and LHD will continue to participate and communicate in onsite program matters.	 DWQ will notify LHD by a means of communication, when a representative comes into the LHD area for onsite program business. DWQ will be represented at all COWP monthly meetings. LHD will attempt to send a representative to monthly COWP meetings. A representative of DWQ will attend the annual Utah Onsite Wastewater Association conference. LHD will attempt to send a representative to the Annual Utah Onsite Wastewater Association conference. 	
Effectively implement and administer the Liquid Waste Program in the collection, storage, transportation and disposal of all sewage wastewater.	Administer the Liquid Waste Program per Utah Administrative Code R 317-550 to help prevent a public health hazard or nuisance or adversely affecting water quality. 1. Every Liquid Waste hauler operating within the boundaries of the LHD will notify the LHD by filing a Notification Form with all required information, per R317- 550-3. 2. Ensure that the disposal sites	1. List all Liquid Waste operators that have been granted a Notification Form. 1. LHD may conduct annual inspections on all the liquid waste trucks used by each operator. 1. Encourage the operator to obtain a surety bond issued by a corporate surety company. 3. LHD may inspect disposal sites used by the liquid waste operators,	

GOAL	OBJECTIVE	MEASURE	TO BE REPORTED
	used by the Liquid Waste operators are maintained in a sanitary manner and adequate to receive and treat these wastes.	as determined as necessary.	
Identify and manage all pollution sources to insure continued beneficial uses of water and public health protection.	Identification of surface water and ground water pollution sources.	Number of uncontrolled pollution sources identified and addressed or referred to DEQ. Number of fish kills and/or spills investigated.	

Water Quality: Get the Mercury Out
